

ANT Technologies®

Paperless Productivity™

Paperless technology that provides database driven building management solutions.

Service Tracker™

Real-time Service Management

- Improves Field and Administration productivity by over 18%
 - Improves cash flow cycles by 3 to 4 weeks!
- Increases Field generated work approvals by 50%

Instant and improved Service Reports!

Working with Service Tracker™ improves service report details. Reports can be immediately entered into the system on-site and are always searchable. The reports are sent electronically to your client which increases their knowledge of the work accomplished.

4. Client Asset Management:

- Track equipment service
- View all service history
- Keep everyone informed
- Swift access

We designed Service Tracker™ with mobile in mind.

5. Consolidate Timesheets:

- Facilitate report accountability
- Auto-generated from service reports
- Simplify administration

The dashboard includes a sidebar with navigation options: Dashboard, Generate Work Order, Schedule Service, Service Tracker Settings, Manage Checklists, Master Lists, and Field Quotes. The main area features several widgets: 'Incomplete Order' (5), 'Unscheduled' (4), 'Unaddressed PM W/Os' (0), 'Require W/O No.' (0), 'Field Quotes' (1), 'After Hours Calls' (0), 'Notes' (3), 'Employees' (3), 'Sites & Clients' (5 Sites, 7 Clients), 'Suppliers & Manufacturers' (1 Suppliers, 1 Manufacturers), and 'Filing Cabinet' (7 Work Orders, 4 Service Reports, 12 Pieces of Equipment, 10 QR Codes). A search bar at the top allows for site name filtering.

1. Your Service Dashboard:

- Access all your pertinent data
- Organize field quotes
- Digitize your filing cabinets
- Accomplish daily objectives
- Observe key information quickly
- Streamlined management and administration

The form includes a 'Work Order Number' field with a note 'This value will be auto generated'. The 'Work Description' field has a rich text editor with bold, italic, underline, and size options. Other fields include 'Contract', 'Checklist', 'Date Created' (2016-05-02), and 'Customer P.O.#'.

Technicians can scan the QR code and be taken immediately to the web site where entering information is simple, fast and convenient!

The calendar view shows work orders assigned to technicians across the week. A modal titled 'Work Order Assignment' is open, allowing for technician selection and time scheduling. The modal includes fields for 'Name' (Tech Guy), 'Date Of Work' (2016-05-05), 'Start Time' (08:00 AM), and 'Duration (in hours)' (2). It also features 'Remove', 'Add Technicians', and 'Add' buttons.

2. Manage your Technicians:

- Generate work orders
- Assign work orders
- ID work orders ready to invoice
- Keep your team organized

Project Tracker™ seamlessly transitions into Service Tracker™

Paperless Productivity™

Project Tracker™ Service Tracker™ Tenant Tracker™
